

ROD'S

CUSTOM MADE

STOCK BLOCKS

SOUTH EAST MIX - 17kg

*Used for both sheep and cattle on dry feed and stubble.
Ideally suited for South Eastern South Australia region.*

Designed for both sheep and cattle, the block is ideally fed on dry feed and stubble to maximise utilisation of the poorer quality feed. The block contains a balanced combination of urea and natural proteins which stimulates the microflora in the rumen, causing increased appetite and feed conversion efficiency. The block also contains a balance of essential vitamins, minerals and trace elements. Due to known vitamin and trace element deficiencies in South Eastern Australia, the South East Mix Block contains additional Sulphur, Copper, Cobalt and vitamins.

Maximum Salt	50%	Iron	165 mg/kg
Minimum Crude Protein	30%	Zinc	165 mg/kg
Indumel Dried Molasses	4%	Iodine	3.5 mg/kg
Urea	10%	Manganese	70.4 mg/kg
